saging oils into the body. A bath with essential oils is one of the simplest and most effective ways to reduce stress and improve sleep. TOTO's 72- by 38-inch Guinevere Airbath not only offers a good long aromatic soak, but also provides the opportunity for therapeutic bathing in its luxurious 20-inch deep bathing well, which incorporates two additional primal elements — air and light.

The Guinevere's Air Jet System provides 16 jets, placed strategically to target body's pressure points, relieving tension and stress. These jets propel warm air through the water, creating millions of tiny effervescent bubbles that surround the body and caress the skin. Bathers also can enjoy the benefits of chromatherapy, which uses colored light in much the same way aromatherapy uses scent — to stimulate myriad psychological and

physical responses.

Hardware updates

Small touches — such as a change to bathroom hardware — can have a big impact on overall design. The Guinevere Lavatory Faucet and Deck Mount Bath Faucet with Hand Shower reflect the traditional design influences of the past while incorporating modern touches for a look that will remain appealing for years to come. The cross handles serve as a graceful counterpoint to the vertical detailing of the gently flared bases that echo in the spouts to give these faucets a stylish look that echoes a time gone by, but they are engineered for today's active households.

Shower technology

Luxuriate in the shower without the worry of excessive water use. The Guinevere Shower Set complements the bath and lavatory faucets, pro-
